Figura 3 – Escolhendo o Ponteiro

Agora vem a parte mais importante que é a configuração dos dados que possui os seguintes itens:

- **Weight Units:** mude para Kilograms
- **Track:** mude para *Weight*, para aparecer na barra apenas quantos Kg você pretende perder e quanto já perdeu.
Mas se você deseja mostrar quantos kg você tem marque *Weight Change*
- **Starting Weight:** digite seu peso inicial
Observação para colocar as gramas use . (ponto final)
- **Corrente Weight :** digite seu peso atual
Observação para colocar as gramas use . (ponto final)
- **Target weight :** digite seu objetivo
Observação para colocar as gramas use . (ponto final)
